

## Experience

### NTT DATA 2020 – Present

Software Development Senior Manager 10/2021 – Present  
Software Development Advisor 4/2021 – 10/2021

- Managed team of UI/UX designers and front-end developers.
- Led modernization of the front-end across a portfolio of over 70 applications.
- Led standardization of UI/UX; creating unified design systems, style guides, infographics, presentation templates, and other relevant materials.
- Led standardization of front-end development; including the creation front-end templates, framework unification, code sharing across teams, standardized plugins, coding standards, and more.
- Led 508 compliance initiatives for new applications and collaborated with developers to remediate existing applications.
- Coordinated with managers and developers across 6 teams to uniformly implement standards.

### NET eSolutions (NETE) 2013 – 2021

Acquired by **NTT DATA** in 2019

Web User Experience Specialist III 1/2020 – 4/2021

Web User Experience Specialist II 6/2018 – 1/2020

Principal Consultant 11/2015 – 6/2018

Management Analyst 9/2013 – 11/2015

- Worked across various contracts with multiple clients, effectively balancing, prioritizing, and delegating tasks based on their specific needs.
- Served as the primary UI/UX designer for multiple clients, contributing to the design and development of user-friendly and visually appealing interfaces.
- Spearheaded data-driven modernization initiatives, encompassing the entire design process from conceptualization to implementation and delivery.
- Led the creation of interactive dashboards using open-source and custom data visualization solutions, enhancing user engagement and data presentation.
- Led and mentored a team of developers, ensuring the successful implementation of designs as responsive and compliant with the Section 508 accessibility standards.

### Caffeinated Pixels 2010 – 2013

Self Employed

- Designed, coded, and published retro-style platform games.
- Wrote, illustrated, and coded an interactive children's book.
